Subject: DRAFT - Sasol Correction for 2014-2020 reduction
Attachments: DRAFT Short - Sasol 6-14-21.docx

Ruben,

Based off the new numbers from Kelly, Sasol slightly increased from 2019 to 2020. Reductions from 2014-2019 were 75%. From 2014-2020, emissions were reduced by about 63%.

I highlighted in yellow where I changed the number under preliminary 2020 annual emissions update.

Thanks,

Bree
